- **X | 54.20% (2019)**

  S.B.M.Padwal Vidyalaya English Medium, Thane

ACADEMIC PROJECTS

- **Amazon Clone: (Click Here)**

  Creating my first website was a valuable learning experience. Throughout the process, I gained new skills and knowledge. The website is built using HTML and CSS and is designed to be responsive. It features an interface similar to Amazon, offering a familiar user experience. Additionally, I deployed the website on the Netlify platform.

- **Grocery Bud: (Click Here)**

  This website is made using JavaScript. It allows users to add items, delete items, and update items. When refreshing the page, it prompts the user to confirm whether they want to proceed with the refresh. The website is deployed on the Netlify platform.

- **Airline Website: (Click Here)**

  This website is designed to help customers find airline hotels or nearby hotels. It is a responsive website built using HTML, CSS, and JavaScript, ensuring optimal viewing and interaction across various devices. The site is deployed on the Netlify platform.

HOBBIES

- Traveling
- Hanging Out with Friends
- Playing Games
