PROJECT

Airline Hotel Website: (Link)

- This website is designed to help customers find airline hotels or nearby hotels.
- It is a responsive website built using HTML, CSS, and JavaScript, ensuring optimal viewing and interaction
- The site is deployed on the Netlify platform.

Grocery Bud (To-do-List): (Link)

- This website is made using JavaScript.
- It allows users to add items, delete items, and update items.
- When refreshing the page, it prompts the user to confirm whether they want to proceed with the refresh.
- The website is deployed on the Netlify platform.

Amazon Clone: (Link)

- Creating my first website was a valuable learning experience.
- The website is built using HTML and CSS and is designed to be responsive.
- It features an interface similar to Amazon, offering a familiar user experience.
- Additionally, I deployed the website on the Netlify platform.
